FOR IMMEDIATE RELEASE

REOTEMP BECOMES AUTHORIZED RED VALVE SERVICE & REPAIR FACILITY.

San Diego, CA – June 6, 2007 – REOTEMP Instruments has become an authorized service & repair facility for Red Valve annular pressure sensors. In addition to providing service, REOTEMP is making the full line of Red Valve pressure sensors available to its distribution network throughout the U.S. and internationally.

REOTEMP has developed an outstanding reputation within the industry for high quality service, quick repair, and custom seal solutions. Their expertise along with a complete line of high quality temperature and pressure instrumentation allows REOTEMP to produce an ideal assembly for virtually any customer. The Red Valve line, widely recognized as the industry standard for annular seals, is the perfect complement to REOTEMP's current product offering.

With years of experience and a highly trained staff, REOTEMP's service department is ready for any application. Service & Repair capabilities include world class high vacuum stations, multi-port filling centers, fault analysis, state of the art welding, leak detection, calibration, and much more.

While quality is REOTEMP's focus, speed is also a core component. Expedited turnarounds are available and can be completed in as little as 24hrs for critical applications.

REOTEMP Instruments was established in 1965 and is located in San Diego, California. REOTEMP is recognized as a leading manufacturer and supplier of temperature and pressure instrumentation to a variety of process markets worldwide.
